

# Getting Started with your TECHNOCASH Account

1. Log in to your Account at [www.technocash.com](http://www.technocash.com) using your Account number and initial password supplied to you.
2. Take control of your Account by setting up your own personal password and details.
3. Load money into your Account:
  - Wire funds internationally (just quote the last 10 digits of your Account number or the 6-character deposit reference number) to one of our many bank accounts in the following currencies:

US dollars  
Euros  
Great British pounds  
Australian dollars  
Hong Kong dollars  
Singapore dollars  
Japanese yen  
New Zealand dollars...

Please note: For your convenience full details of all Technocash bank accounts for depositing funds are shown on our website [www.technocash.com](http://www.technocash.com) - see the bank link or details online via your Account.

- Print out your Account's deposit reference to use at Australia Post – load money using cash or EFTPOS.
  - **Remember** just quote the last 10 digits of your Account number or 6-character deposit reference number as a reference to identify your payment.
  - To deposit large amounts into your Account – talk to your bank about making a local TT to one of our nominated bank accounts.
4. With funds in your Account you are now set to make multi-currency transactions from your one Technocash Account. Log in to your Account any time of day and set up as many payee details as needed in the "My Account" section.
  5. Use your Account to make and receive payments locally & internationally, send SMS messages to mobile phones worldwide, shop online at [www.Zimbo.com.au](http://www.Zimbo.com.au)... the list goes on and on.
  6. Remember to always update your details in the "My Account" section: you can view all your transactions, never have to fill out and post forms – it's all in your TECHNOCASH BillFold facility.

***It's electronic, fast, worldwide and easy to use.***
